

### Guide For Erodex Anti-Corrosion Powder

1

#### Storage

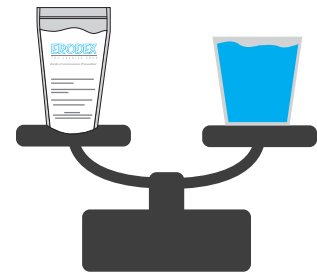

- When not in use, keep container sealed
- Store away from heat sources and direct sunlight

2

#### Mixture Ratio

- Add 1 gram for every litre
- Example - 100g powder for 100 liters of water
- Measure using a measuring cup, prior to mixing

3

#### Mixing

- Do not pour at once
- Slowly add while stirring tank
- Circulate water for 15 minutes and make solution homogenized
- Ensure fluids are mixed before using

4

#### Safety

- Ensure safety measures are followed
- Read health & safety guidelines before use
